Help (explanation of how to use)	Map (maybe)
	Select Area (maybe)

some functions
we may have

<p>Generate</p> <p>(generate random restaurants; could be called something else like "I'm Feeling Lucky" or "lets roll the dice"; random results popup on the screen)</p>	<p>Filter</p> <p>(filters the random generator; can specify the scope; like certain types of food; could be a dropdown menu or popup; could also be called specify)</p>
<p>Help</p> <p>(small button that will popup a list of instructions on how to use the generator)</p>	

They will

Generate
